

Nov. 25th (Fri) Poster Presentation Room Subaru, Comet 43F

16:20-16:50 Poster Infectious Diseases

- P1-01 The characteristics of young children, not immunized measles, and their programmatic implications**
Fahima Chowdhury, Clinical Sciences Division, ICDDR, B : Centre for Health and Population Research, Bangladesh
- P1-02 Serological study on neutralizing test (NT) antibodies against measles virus in Himeji, Japan**
Teruo Okafuji, Okafuji Pediatric Clinic, Japan
- P1-03 Cumulative vaccination coverage for measles in Japan**
Hiroshi Sakiyama, Sakiyama Children's Clinic, Japan
- P1-04 Measles as a vaccine-preventable disease: A questionnaire survey on the immunization system in Chiba**
Sayaka Takanashi, The University of Tokyo School of Medicine, Japan
- P1-05 The measles vaccine and the media in Japan**
Akiko Miyata, Miyata Children's Clinic, Japan
- P1-06 Predictive value of cerebrospinal fluid d-ROM levels in influenza-associated encephalopathy**
Gaku Yamanaka, Tokyo Medical University, Japan
- P1-07 Successful treatment of combination therapy with oseltamivir and Mao-to for influenza**
Haruo Kuroki, Sotobo Children's Clinic, Japan
- P1-08 Clinical characteristics of children with influenza B virus infection**
Chien Hui Lin, Chang Gung Children's Hospital, Taiwan
- P1-09 Seroprevalence of HPV types 16 and 18 among female residents in Taiwan**
I-Jen Wang, Departments of Pediatrics, Department of Health, Taipei Hospital, Taiwan
- P1-10 The impact of CSF enterovirus RT-PCR assay on clinical management of aseptic meningitis**
Shu Ying Lee, Department of Pediatric Medicine, Kandang Kerbau Women's and Children Hospital, Singapore
- P1-11 Oral antibiotics resistant patterns of *E.coli*, from pediatric patients with community acquired UTI**
SY Lee, Department of Pediatrics, The Catholic University of Korea, Our Lady of Mercy Hospital, Korea
- P1-12 Eradication of methicillin-resistant *Staphylococcus aureus* (MRSA) infections in NICU**
Hiroyuki Kitajima, Osaka Medical Center and Research Institute for Maternal and Child Health, Japan
- P1-13 Withdrawn**
- P1-14 Pediatric infectious disease in Chongqing children's hospital of China during 1984-2004**
Zuo-Yi Liu, Children's Hospital, Chongqing University of Medical Sciences, China
- P1-15 Unusual bleeding manifestation of hypermenorrhea in adolescents with Dengue Hemorrhagic Fever (DHF)**
Kanchana Tangnaratchakit, Department of Pediatric, Faculty of Medicine, Ramathibodi Hospital, Mahidol University, Thailand
- P1-16 Predictors of Dengue Hemorrhagic Fever in pediatric dengue infection**
Duangporn Asawarachun, Ayudhya Hospital, Thailand

-
- P1-17** **Study of epidemiological features of diphtheria and neonatal tetanus at teaching hospital, Rajkot**
Yogesh Narendrabhai Parikh, Department of Pediatric, P.D.U. Medical College & K.T. Children Hospital, India
- P1-18** **Clinical profile of children with thalassemia with DHF in Akola M.S. India**
Parthasarathi Mukund Shukla, Fellow of Indian College of Maternal and Child Health, India
- P1-19** **Clinical profile of children with DHF in Akola (M.S.) India**
Parthasarathi Mukund Shukla, Fellow of Indian College of Maternal and Child Health, India

16:20-16:50 Poster

Neonatology

- P1-20** **What is the real problem, being born after IVF or prematurity itself?**
Tae-Jung Sung, Department of Pediatrics, Kangnam Sacred Heart Hospital, College of Medicine, Hallym University, Korea
- P1-21** **Comparison of neonatal outcome between spontaneous twin pregnancies and twin pregnancies after IVF**
Tae-Jung Sung, Department of Pediatrics, Kangnam Sacred Heart Hospital, College of Medicine, Hallym University, Korea
- P1-22** **Motor development of very low birthweight infants with chronic lung disease - a comparative study**
Cheo Lian Yeo, Department of Neonatal and Developmental Medicine, Singapore General Hospital, Singapore
- P1-23** **Emergence of physiological rhythmicity in term and preterm neonates in neonatal intensive care unit**
Esmot A. Begum, Clinical Research Institute, National Hospital Organization Mie Chuo Medical Center, Japan
- P1-24** **A cross-sectional study of auricular anthropometry in Singapore General Hospital**
Wee Bin Lian, Department of Neonatal and Developmental Medicine, Singapore General Hospital, Singapore
- P1-25** **Maturation change of skin color in newborn infants**
Masayuki Watanabe, Gunma University Graduate School of Medicine, Japan
- P1-26** **How should we treat with near-term babies?**
Akio Ishiguro, Department of Pediatrics, The University of Tokyo Graduate School of Medicine, Japan
- P1-27** **A study of infant feeding practices among mothers attending well baby clinic**
Chikitsa D. Amin, Department of Community Medicine, MP Shah Medical College, India
- P1-28** **Respiratory syncytial viral infection during the first year of life in VLBW Malaysian infants**
Sin-Chuen Yong, Hospital Universiti Kebangsaan Malaysia, Malaysia
- P1-29** **Review of vancomycin usage in neonates**
Masitah Ibrahim, Department of Neonatal and Developmental Medicine, Singapore General Hospital, Singapore
- P1-30** **Hepatitis B vaccination for premature babies weighing less than 1800 grams**
Wee Bin Lian, Department of Neonatal and Developmental Medicine, Singapore General Hospital, Singapore
- P1-31** **Is coagulase-negative staphylococcal sepsis an aggravating cause of bronchopulmonary dysplasia?**
Tae-Jung Sung, Department of Pediatrics, Kangnam Sacred Heart Hospital, College of Medicine, Hallym University, Korea

- P1-32** **Decreased nitric oxide production by neutrophils in preterm infants**
Atsushi Ohashi, Department of Pediatrics, Kansai Medical University, Japan
- P1-33** **Induction of necrotizing funisitis in the chronically instrumented fetal sheep**
Tatsuya Watanabe, Department of Pediatrics, Tohoku University Graduate School of Medicine, Japan
- P1-34** **Antimicrobial protein/peptides activity in human breast milk**
Hiroyuki Yoshio, Department of Neonatology, National Hospital Organization Okayama Medical Center, Japan
- P1-35** **Severe postnatal cytomegalovirus infection in a very premature infant**
Ritsuko Takahashi, Neonatal Intensive Care Unit in Perinatal Center, Japanese Red Cross Sendai Hospital, Japan
- P1-36** **Fulminant clostridial necrotizing enterocolitis - A case report**
Masitah Ibrahim, Department of Neonatal and Developmental Medicine, Singapore General Hospital, Singapore
- P1-37** **Serine palmitoyltransferase activity in the rat brain in comparison with damaged brain**
Masaki Daigo, Department of Pediatrics, Juntendo University School of Medicine, Japan
- P1-38** **Estimation of optical parameters determined by TRS in piglets during hypothermia**
Kensuke Okubo, Kagawa University, Japan
- P1-39** **Essential cerebral distribution of cardiac output in infants**
Takashi Kusaka, Kagawa University, Japan
- P1-40** **Optical properties in neonates determined by near-infrared time-resolved spectroscopy**
Takashi Kusaka, Kagawa University, Japan
- P1-41** **Spontaneous low frequency oscillations of cerebral hemodynamics in human neonates**
Kenichi Isobe, Kagawa University, Japan
- P1-42** **Clinical manifestations of parasagittal cerebral injury**
Yoshiaki Sato, Nagoya University Graduate School of Medicine, Japan
- P1-43** **The new circulation strategy to prevent intraventricular hemorrhage of extremely preterm infants**
Atsushi Nakayama, Department of Pediatrics, Okazaki City Hospital, Japan
- P1-44** **Surfactant protein-A, D and B from BAL in rats treated with paraquat**
Myung Ho Oh, Department of Pediatrics, Soonchunhyang University Hospital, Korea
- P1-45** **The expression of Renin-Angiotensin-System in the human fetal lung fibroblast**
Masakazu Miyawaki, Division of Perinatal Medicine NICU, Wakayama Medical University, Japan
- P1-46** **Clinical value of the new definition of bronchopulmonary dysplasia**
Andreas Jung, Department of Neonatology CCM, Charité- University Hospital Berlin, Germany
- P1-47** **Measurements of proinflammatory cytokine and exhaled nitric oxide levels in acute lung injury**
Yu-Sheng Lee, Department of Pediatrics, Taipei Veterans General Hospital, Taiwan
- P1-48** **Plasma concentration of ANP and BNP in umbilical vein at birth for term and preterm neonates**
Taro Kanbe, Department of Pediatrics and Child Health, Kurume University School of Medicine, Japan
- P1-49** **Combined therapy of dexamethasone and indomethacin for patent ductus arteriosus in premature infants**
Takeshi Takami, Department of Pediatrics, Tokyo Medical University, Japan

- P1-50 Postnatal evaluation of brain blood flow: Long lasting effect of intrauterine growth retardation**
Masato Kantake, Department of Pediatrics, Juntendo University Urayasu Hospital, Japan
- P1-51 Prediction of severe neonatal hyperbilirubinemia using the transcutaneous bilirubinometer bilicheck**
Shareena Ishak, Department of Paediatrics, Universiti Kebangsaan Malaysia, Malaysia
- P1-52 *In vitro* efficacy of phototherapy in neoBLUE™**
Hitoshi Okada, Kagawa University, Japan
- P1-53 Five cases with late-onset hyponatremic circulatory failure in extremely low birth weight infants**
Takeshi Hasegawa, Kitasato University of Medicine, Japan
- P1-54 Creation of congenital diaphragmatic hernia in goats by open fetal surgery: A preliminary report**
Jeng-Chang Chen, Department of Surgery, Chang Gung Children's Hospital, Taiwan
- P1-55 Prognostic factors and clinical features in liveborn neonates with hydrops fetalis**
Hsuan-Rong Huang, Chang Gung Children's Hospital, Taiwan

16:20-16:50 Poster

Neurology

- P1-56 Antiepileptics decrease P-gp in K562/ADR cell**
Koutarou Muraki, Department of Pediatrics, National Hospital Organization, Kure Medical Center, Japan
- P1-57 The first summer treatment program for children with ADHD in Kurume, Japan**
Yushiro Yamashita, Department of Pediatrics & Child Health, Kurume University School of Medicine, Japan
- P1-58 Outcome of neuroconversion disorders in Singapore children**
Wan Yee Teo, Department of Pediatric Medicine, Kandang Kerbau Women's & Children's Hospital, Singapore
- P1-59 The first polyalanine expansion of ARX causes more severe phenotype than the 2nd polyAla expansion**
Mitsuhiro Kato, Department of Pediatrics, Yamagata University School of Medicine, Japan
- P1-60 Accumulation of β amyloid-like protein in the piglet brain under secondary energy failure**
Takashi Kusaka, Kagawa University, Japan
- P1-61 Estimation of verbal cortex with multi-channel near-infrared spectroscopy in preterm infants**
Tomoko Nishida, Department of Pediatrics, Faculty of Medicine, Kagawa University, Japan
- P1-62 Apparent diffusion coefficient of water compared to neuronal injury in a newborn piglet model of HI**
Osuke Iwata, Centre for Perinatal Brain Protection and Repair, Department of Paediatrics and Child Health, University College London, UK
- P1-63 Neuroprotective effect of magnolol on organotypic hippocampal slice cultures**
Yi-Fang Tu, National Cheng Kung University Hospital, Taiwan
- P1-64 Molecular and genetic basis of subacute sclerosing panencephalitis: Microarray analysis of PBMCs**
Ryutaro Kira, Department of Pediatrics, Graduate School of Medical Sciences, Kyushu University, Japan
- P1-65 Proteomic analysis in cerebrospinal fluids with influenza encephalopathy**
Takeshi Asano, Department of Pediatrics, Nippon Medical School, Japan

-
- P1-66** **Antioxidative scavengers and biopterin in cerebrospinal fluid in children with neurological diseases**
Yasuhiko Kawakami, Department of Pediatrics, Nippon Medical School Tama Nagayama Hospital, Japan
- P1-67** **ADEM after Japanese encephalitis vaccination: Report of a new case and review of the literature**
Takashi Ohya, Department of Pediatrics & Child Health, Kurume University School of Medicine, Japan
- P1-68** **A retrospective analysis of the effect of antihistamine against complication of febrile convulsion**
Ipppei Miyata, Division of Infectious Diseases, The Advanced Clinical Research Center, The Institute of Medical Science, The University of Tokyo, Japan
- P1-69** **Maternal thyroxine treatment ameliorates fetal alcohol effects in the rat brain**
Sang Kee Park, Chosun University Medical College, Republic of Korea

16:20-16:50 Poster Metabolic Diseases

- P1-70** **An infant with a mitochondrial A3243G mutation demonstrating the MELAS phenotype**
Kanaumi Takeshi, School of Medicine, Fukuoka University, Japan
- P1-71** **Beneficial effect of early introduction of pamidronate in an infant with osteogenesis imperfecta**
Sumie Yamashita, Osaka Kosei-Nenkin Hospital, Japan

16:20-16:50 Poster Endocrinology

- P1-72** **Assessment of measurement of children's bone age ultrasonically with sunlight bonage**
Naoto Shimura, Dokkyo University School of Medicine, Japan
- P1-73** **Outcome of congenital hypothyroidism detected on newborn mass screening**
Mari Murakami, Osaka Medical Center and Research Institute for Maternal and Child Health, Japan
- P1-74** **PTPN22 gene and type 1 diabetes in children**
Yann-Jinn Lee, Mackay Memorial Hospital, Taiwan
