

Nov. 26th (Sat) Poster Presentation Room Subaru, Comet 43F

16:20-16:50 Poster Genetic Diseases

- P2-01** **Usefulness of a rapid and efficient diagnostic method for chromosome abnormalities using QF-PCR**
Shigeki Tanaka, Clinical Research Institute, Mie-chuo Medical Center, National Hospital Organization, Japan
- P2-02** **Mitochondrial energy metabolism in Klotho kl/kl mice**
Yukihiro Akita, Department of Pediatrics and Child Health, Kurume University School of Medicine, Japan
- P2-03** **AVP-suppression ameliorates disease progression in rodent APRKD**
Shizuko Nagao, Education and Research Center of Animal Models for Human Diseases, Fujita Health University, Japan
- P2-04** **Molecular analysis for the Japanese patients with Wilson disease**
Mio Koyasu, Department of Biomolecular Science, Toho University Faculty of Science, Japan
- P2-05** **Gene mutations in Japanese patients with Wilson disease**
Katsuaki Shiga, Teikyo University School of Medicine, Japan
- P2-06** **Vasoactive prostanoids imbalance: Underlying mechanism of pulmonary hypertension in Down syndrome**
Hiroyuki Fukushima, Department of Pediatrics, School of Medicine, Keio University, Japan
- P2-07** **TGF-beta receptor 2 gene is not related to the pathogenesis of Moyamoya disease**
Toshiyuki Yamamoto, Department of Medical Genetics, Kanagawa Children's Medical Center, Japan
- P2-08** **Congenital anomaly of cervical vertebrae is a major complication of Rubinstein-Taybi syndrome**
Toshiyuki Yamamoto, Department of Medical Genetics, Kanagawa Children's Medical Center, Japan
- P2-09** **Hemifacial microsomia associated with multiple anomalies in the spectrum of AMDC**
DarShong Lin, Mackay Memorial Hospital, Taiwan

16:20-16:50 Poster Psychiatry & Social Problem and Miscellaneous

- P2-10** **Prevalence of maternal depression among mothers of infants treated in a neonatal intensive care unit**
Teruyo Nagahama, Graduate School of Human Life Science, Osaka City University, Japan
- P2-11** **When and how do young children start to imitate the movement of Bye-Bye?**
Gakuyou Matsui, Faculty of Health Science, Kobe University School of Medicine, Japan
- P2-12** **The study of the taste development on the newborns**
Lan Zhang, The Children's Hospital of the ChongQing University of Medical Science, China
- P2-13** **Analysis of peri-operative analgesia in children operated over six months in a tertiary care center**
Sanjib Das Adhikary, Department of Anaesthesia, Christian Medical College, India
- P2-14** **Kerosene poisoning among Bangladeshi children: Circumstances surrounding the event**
Shakil Ahmed, Department of Pediatrics, Dhaka Medical College Hospital, Bangladesh

16:20-16:50 Poster Allergy

- P2-15** **Evaluation of bronchial hyperresponsiveness by monitoring arterial saturation in asthmatic children**
Junying Wang, Department of Pediatrics and Developmental Medicine, Gunma University Graduate School of Medicine, Japan
- P2-16** **Inhaled therapy in asthma children: Comparison of pediatric and family medicine physicians**
Hailun Sun, Department of Pediatrics, Chung Shan Medical University Hospital, Taiwan
- P2-17** **A trial to determine the dose of inhaled corticosteroid by sputum cytology in childhood asthma**
Tetsuya Takamasu, Department of Allergy, Kanagawa Children's Medical Center, Japan
- P2-18** **The use of a patch formulation of tulobuterol, a long-acting β 2- agonist, in pediatric asthma**
Shigemi Yoshihara, Dokkyo University School of Medicine, Japan
- P2-19** **Analysis of Ag-specific IgE antibody, total serum IgE and blood eosinophil in food allergic children**
Jin-Tack Kim, College of Medicine, The Catholic University of Korea, Korea

16:20-16:50 Poster Rheumatic Diseases

- P2-20** **A randomized study of oral and intravenous alendronate treatment for steroid-induced osteoporosis**
Juzaburo Inoue, Department of Pediatrics, Graduate School of Medicine, Chiba University, Japan
- P2-21** **Cytology of saliva: a new tool for the early diagnosis of Sjören's syndrome in early stage**
Minako Tomiita, Department of Pediatrics, Graduate School of Medicine, Chiba University, Japan
- P2-22** **Augmented apoptosis in peripheral CD8+ T-lymphocytes in a patient with juvenile dermatomyositis**
Norifumi Ogawa, Department of Pediatrics, Kitasato University, Japan

16:20-16:50 Poster Respiratory Diseases

- P2-23** **Endothelial nitric oxide synthase is the main enzyme for NO production from the lungs of rabbits**
Yeong-Seng Yuh, Tri-Service General Hospital, National Defense Medical Center, Taiwan
- P2-24** **Effect of dexamethasone and hyperxia on lung tissue aquaporin-1 expression**
Zhong-Yi Lu, Children's Hospital, Chongqing University of Medical Sciences, China
- P2-25** **Surfactant protein-A, D and B from bronchoalveolar lavage in near drowning**
Myung Ho Oh, Department of Pediatrics, Soonchunhyang University Hospital, Korea
- P2-26** **A case of infantile aortitis syndrome accompanied with a large aortic aneurysm**
Yoshiki Yokoyama, Tokyo University Hospital, Japan

16:20-16:50 Poster**Nephrology**

- P2-27** **Altered expression of JAM4 in experimental nephrotic syndrome**
Yutaka Harita, Department of Cell Biology, Institute of Nephrology, Niigata University Graduate School of Medical and Dental Sciences, Japan
- P2-28** **Effects of low-density lipoprotein apheresis on steroid sensitivity in patients with primary FSGS**
Motoshi Hattori, Department of Pediatric Nephrology, Tokyo Women's Medical University, Japan
- P2-29** **Factors affecting spontaneous resolution of hematuria in childhood nutcracker syndrome**
Jae Seung Lee, Department of Pediatrics, Yonsei University College of Medicine, Korea
- P2-30** **Role of fibrinogen deposition in the pathogenesis of crescentic Henoch-Schönlein nephritis**
Jae Seung Lee, Department of Pediatrics, Yonsei University College of Medicine, Korea
- P2-31** **Three cases of Fanconi syndrome after the combined chemotherapy of ifosfamide and cisplatin**
Jun Inatomi, Department of Pediatrics, Faculty of Medicine, The University of Tokyo, Japan
- P2-32** **The role of early circumcision in children to treat urinary tract infections**
Debasish B. Banerjee, Orange City Hospital and Research Institute, India

16:20-16:50 Poster**Hematology, Oncology**

- P2-33** **Long-term outcome of venous thromboembolism in Thai children: A 20 year follow up**
Nongnuch Sirachainan, Department of Pediatrics, Faculty of Medicine, Ramathibodi Hospital, Mahidol University, Thailand
- P2-34** **Diagnosis of von Willebrand disease using ristocetin factor assay in Filipinos w/ bleeding tendency**
Mary N. Chua, Philippine National Hemophilia Center Foundation, Inc, Philippines
- P2-35** **Analysis of the ATBF1 gene in pediatric solid tumors**
Yuyan Chen, Department of Pediatrics, Graduate School of Medicine, University of Tokyo, Japan
- P2-36** **Association of trisomy 12 with loss of imprinting of insulin-like growth factor-II in Wilms tumor**
Naoki Watanabe, Research Institute for Clinical Oncology, Saitama Cancer Center, Japan
- P2-37** **Research on heme oxygenase-1 preventing rat liver transplantation from ischemia/reperfusion**
Xian-Qing Jin, Children's Hospital, Chongqing University of Medical Sciences, China
- P2-38** **EBV DNA positive primary gastric lymphoma in a child**
Byung Kyu Choe, Dongsan Medical Center, Korea

16:20-16:50 Poster**Nutrition**

- P2-39** **The effect of probiotics in the treatment of acute non-bloody diarrhea in infants aged 3-24 months**
Hazel T. Valdoria, Jose R. Reyes Memorial Medical Center, Philippines
- P2-40** **Evaluation of the efficacy of probiotics in prevention of infectious diseases in kindergarten**
Jun-Song Lin, Department of Pediatrics, Buddhist Tzu Chi General Hospital, Taiwan R.O.C.

- P2-41 Preliminary study on the effects of sybiotics on short bowel syndrome in children**
Yuki Kiyohara, Osaka Medical Center and Research Institute for Maternal and Clinical Health, Japan
- P2-42 A survey of nutritional status of patients in tertiary children's hospital**
Grace L. Uy, Philippine Children's Medical Center, Philipines
- P2-43 The change of breast milk antioxidant capacity during cold storage**
Sang Kee Park, Chosun University Medical College, Korea

16:20-16:50 Poster Gastroenterology

- P2-44 Chronic inflammatory bowel disease in southeast Asian children**
Way Seah Lee, Department of Paediatrics, University of Malaya Medical Centre, Malaysia
- P2-45 Perforated peptic ulcers in children- a fifteen- year experience**
Men-Chin Hua, Chang Gung Children's Hospital, Taiwan
- P2-46 Clinical analysis of colon perforation in children**
Yi-Jung Chang, Chang Gung Children's Hospital, Taiwan
- P2-47 A systematic review and re-evaluation of acute gastroenteritis among children**
Akiko Miyata, Miyata Chilren's Clinic, Japan

16:20-16:50 Poster Hepatology

- P2-48 Withdrawn**
- P2-49 Hypogammaglobulinemia with hepatic stenosis causes cytomegalovirus after liver transplantation**
Haruki Komatsu, Department of Pediatrics, Atami Hospital, International University of Health and Welfare, Japan

16:20-16:50 Poster Cardiology

- P2-50 Long term prognosis of complete transposition of the great arteries after atrial switch operation**
Nobutaka Shimizu, Graduate School of Medicine, The University of Tokyo, Japan
- P2-51 Pulmonary/systemic flow ratio in children with collateral after bidirectional Glenn anastomosis**
Hiroyuki Ikeda, Department of Pediatrics, Graduate School of Medicine, The University of Tokyo, Japan
- P2-52 Clustering of obesity, systolic hypertension, and tachycardia in high school students**
Reizo Baba, Department of Pediatrics, Aichi Medical University School of Medicine, Japan
- P2-53 Measurement of carotid artery by ultrasound as a predictor of atherosclerosis in obese adolescent**
Young Mi Hong, Ewha Womans University Hopital, Korea
- P2-54 Evaluation of ventricular tissue characterization using integrated backscatter analysis in children**
Hiroshi Katayama, Department of Pediatrics, Osaka Medical College, Japan

-
- P2-55** **Prevalence and determinants of myocardial dysfunction associated with severe traumatic brain injury**
Audrey Lim, National University Hospital, Singapore
- P2-56** **Histopathological examination in restenosis after pig aorta stenting**
Masahiro Ohtsuki, Department of Pediatrics, Juntendo University School of Medicine, Japan
- P2-57** **Pharmaco-kinetics of high dose gamma globulin therapy in Kawasaki disease**
Yoshiyuki Morikawa, KKR Tachikawa Hospital, Japan
- P2-58** **The incidence of coronary artery abnormality and intravenous immune globulin therapy in patients with**
Takamichi Uchiyama, Nakano Children's Hospital, Japan
- P2-59** **Investigation of atypical Kawasaki disease in Chongqing**
Min Wang, Children's Hospital, Chongqing University of Medical Sciences, China
- P2-60** **Serum nitric oxide and tumor necrosis factor- α levels in Kawasaki disease**
Young Mi Hong, Ewha Woman's University Hospital, Korea
- P2-61** **Quantitative evaluation of the assisted stand test for orthostatic intolerance**
Masaki Hoshiyama, National Center for Child Health and Development, Japan
- P2-62** **Long term follow-up of carnitine supplementation in siblings with hypertrophic cardiomyopathy caused**
Shintaro Kishimoto, Department of Pediatrics and Child Health, Kurume University School of Medicine, Japan
- P2-63** **A case report of renal artery stenosis associated with fibromuscular dysplasia and IVC obstruction**
Nao Inoue, Department of Pediatrics, Osaka Medical College, Japan
